Utsuk, The Science and tech quiz, presented by SciAstra, is a quiz organised by QSI, the Quizzing Society of IISER Thiruvananthapuram as a part of Anvesha '26, the annual science fest of IISER Thiruvananthapuram.

Unlike traditional quiz events, college-level quizzing promotes presence of mind and the ability to work out answers from the questions themselves, rather than relying solely on memorized or obscure knowledge. **Designed for students from classes 8th to 12th**, the questions are designed to reward curiosity, presence of mind, lateral thinking, and the ability to connect seemingly unrelated pieces of information. The questions focus on current events, interesting trivia, and unexpected connections that encourage teams to logically work through and guess at answers.

This event contains **10 rounds of quizzing**; the initial rounds being the Qualifiers that continues to a Redemption round to finally wind down to The Finals. There shall be multiple Audience rounds between each round to keep interaction with the general audience at a maximum.

Below are short descriptions of the aforementioned rounds:

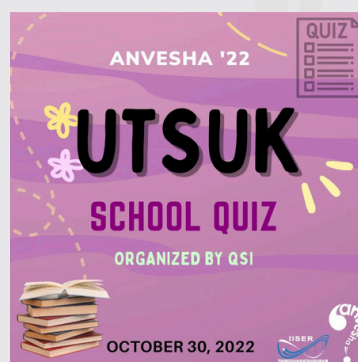

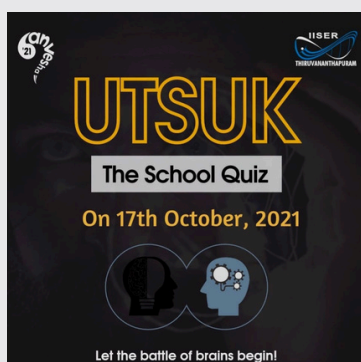

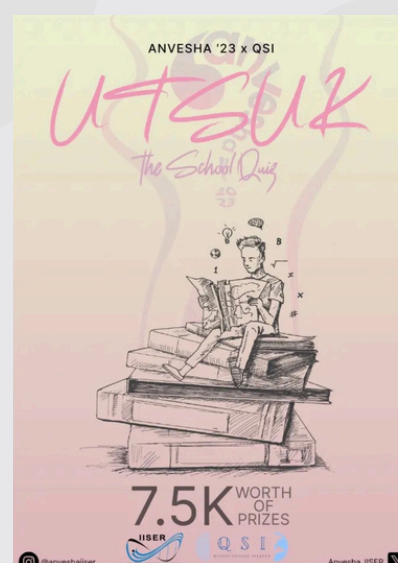

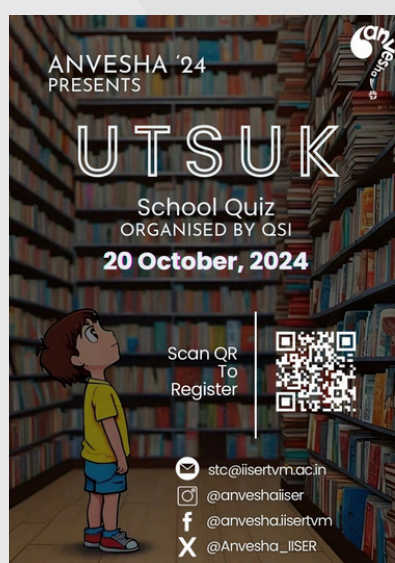

1. The Qualifiers : Fun themed quizzing rounds that test you on various themes. Fast paced and a test of wit and knowledge.

2. The Redemption Round : Quizzing round where eliminated teams can shoot their shot at continuing the competition and win a chance to participate in the Finals.

3. The Finals : Last and final round that will include standard quizzing in formats known to prominent quizzing societies of India. The Final showdown, where the sharpest minds put their quizzing prowess to the test!

4. Audience Rounds : Interactive rounds of questions directed towards the general audience to boost interaction and promote audience participation.

Through Utsuk, we hope to bring the culture of quizzing and the spirit of interdisciplinary scientific curiosity to school students across Trivandrum. We envision the event as an opportunity for students to explore, think, connect ideas, and discover the joy of arriving at answers through reasoning, while becoming part of the larger spirit of curiosity and exploration that defines Anvesha '26.

General Rules and Regulations

1. Code of Conduct & Inclusivity

- All participants must wear their school ID card throughout the competition.
- The quiz is primarily designed for students from class 8 - 12. Participation in the quiz is not limited to students from the above said grades.
- Participants may register individually or in teams of 2.
- QSI strives to be an inclusive, safe, and welcoming space to engage in quizzing.
- Participants must maintain decorum before, during, and after the event. Always be respectful to fellow participants, audience members, and Quizmasters (QMs).
- Remarks that are derogatory to any individual or community based on ethnicity, gender, religion, caste, creed, sexual orientation, or political beliefs are strictly prohibited.
- We take a strong stance against creating a hostile environment. Intimidation, bullying, or any other form of harassment, whether verbal or physical, will not be tolerated under any circumstances.

2. Integrity & Fair Play

- Cheating, malpractice, or unfair practices of any form will result in immediate disqualification.
- The use of smartphones, smartwatches, or any unauthorized electronic devices during the quiz is strictly prohibited.

3. Gameplay & Decorum

- Audience members and competing teams must not shout out answers out of turn. Prompting will result in the question being canceled or points being deducted from the offending team.
- Disputes over answers with QMs must be handled politely. Participants must avoid shouting, arguing, or disrupting the flow of the quiz.
- The Quizmaster's decision regarding answers, points, and disputes is final and binding.

4. Sportsmanship

- Quizzing is ultimately about learning and having fun. Celebrate your correct answers, applaud the good efforts of your peers, and practice good sportsmanship at all times.

UTSUK - The Science & Tech Quiz

3rd October, 2026
11:00 AM to 4:00 PM

Mall OF Travancore

NH66, Eanchakal, Chakkai Junction, Near
Thiruvananthapuram International Airport,
Thiruvananthapuram, Kerala, India - 695024

TOTAL PRIZEPOOL : ₹10K

Anvesha, the annual science fest of the **Indian Institute of Science Education and Research (IISER) Thiruvananthapuram**, is a hotspot for innovation, originality and a pure love for science. Ever since her beginnings in 2009, **Anvesha** has been rooting herself into the ethos of the scientific community here. With events spread across a month, the fest amplifies the buzz around science and gets curious minds thinking!
